

Winder-230

The Winder 230 is a reliable aide to cut
Tubes, cables and wiring.

The Winder-230 makes it possible to roll down all cable roller, tube roller and wiring self-sufficient and a unstrained. Between an width from 100 mm and 230 mm and a weight up to 30 kg. It is possible to adapt the Winder 230 on the carried roller in a few seconds. The infeed is controlled with an compensator, this realizes an individual adaption to each tube or cable possible. With the knob on the forefront it is possible to set up the engine speed continuous.

Technical Data

Materials:	All standard roller, ...
Roll widths:	about 100 mm up to 230 mm or customization on request
Drive:	Electro-mechanical design
Speed:	about 10 m per minute (depending on roller width). It is possible to set up the engine speed at the knob on the forefront.
Dimensions:	(L/W/H): 320 x 650 x 380 mm. Weight: 8.2 kg
Supply:	110-230V/ 50-60 Hz; external power supply 24V/5A.
Scope of delivery:	Basic unit, external, power supply, Operating Instruction English.
Supplies:	Heat resistant VA-rolls, roller,...
Miscellaneous:	Special sizes and customizations on request.
